S. S. CONVENTION

One of the Best Conventions on Record
Was Held in Wilson Grove
July 2nd.

A very fine address on Winning
and Holding the Boys and Young
Men was delivered by Rev. Benjamin
Andrews.

On motion greetings were sent to
the Christian county Convention.

Music by Crayneville choir.

Report of committees were read
and adopted.

Resolutions 1st. That we, as the
Sunday Schools of Crittenden county,
do heartily thank Mr. R. W. Wilson
for appropriating the grounds for the
meeting of our County Convention.

2nd. That we thank Bro. Gabauer
for his excellent work and suggestions
to the Sunday Schools of our county.

3rd. That we thank the Crittenden
Record Press for its interest in Sun-
day School work. In printing our
minutes and other work free of
charge.

4th. That we do heartily thank
the good people attending the Con-
vention for the bountiful dinner pre-
pared.

5th. That we thank the choirs
from the different schools for their
most excellent music.

Officers Elected. R. M. Franks,
county president; J. B. McNeely,
vice president; Miss Sallie Woods,
secretary; Mrs. H. K. Woods, super-
intendent primary work; J. F. Jones,
superintendent home department; R.
L. Moore, superintendent of teacher
training class; Miss Mary Deboe,
superintendent house to house visita-
tion.

Music by Sugar Grove choir.

What are We to Accomplish in
1907? By Rev. J. F. Price.

Short talks were made by Revs.
Gabauer and Elgin and county presi-
dent R. M. Franks.

Singing by all the choirs.

Benediction by Rev. R. C. Love.

Who Got The Flag?

Some one removed one of my all
wool flags from the pole where it
was securely fastened at the front
gate of the R. W. Wilson residence
on Depot street on the night of July
fourth. I presume they thought it
was a cheap advertising flag of no
monetary value but it was not. The
flag taken was all wool fast colors
and prized very highly by me.
Please return it and save further
trouble.

S. M. JENKINS.

Topics For The Bible Class.

The Bible Class will meet at the
C. P. church next Sunday afternoon
at four o'clock. The topics for dis-
cussion, found in Ex. xxxi-xxxxiv,
are as follows:

One The Golden Calf, two Moses
informed of their Idolatry, three
The Two Tables, four Moses Breaks
Them, five Why the Tribe of Levi
chosen, six Moses' prayer and the

Lord's answer, seven The Tabernacle
outskirts of town, and has made
pitched without the camp, eight
Moses seeing God, nine The Tables
renewed, ten The Three Great Feasts,
eleven Moses Veiled Face and its
Significance.

A. H. Reed Will Move to Birmingham, Ala.

Mr. A. H. Reed, last week sold
most of his household goods. We
regret very much that he and his
family will leave our little city.
They will locate in Birmingham,
Ala., where he has secured a position
with the Southern Steel Company.

Card of Thanks.

We wish to thank all of our neighbors
and good people of Blackburn
vicinity, for their kindness shown us
during the last illness of our dear
wife and mother. May God's rich-
est blessings rest upon them all.

T. J. FRALICK AND CHILDREN.

W. H. Heath Dead.

Fredonia, Ky., July 9.—Monday
night at 10 o'clock, W. H. Heath,
one of the most prominent farmers
in this section of the county, died.
He was sixty-five years of age, and
was born in Crittenden county, but
lived in Tennessee several years.

He was well known in Crittenden
and Livingston counties, as he lived
several years near Tolu, and quite a
while near Pinekeynville. He came

here two years ago and purchased the

J. G. Hollar farm, just at the

Notice.

There will be Children's Day and
Mission Day at Deer Creek the third
Sunday in this month. All are invited
to come. All those who live
in the community are requested to
bring well-filled baskets. We will
have all-day service.

W. R. GUINN.

Wilson Laundry Team.

On July the fourth, the Wilson
Laundry Team and the Fredonia
team played a match game of ball on
the latter's diamond. The game was
very close and a good one, the
score being fifteen to fourteen, in
favor of Marion.

T. J. FRALICK AND CHILDREN.

Quite a large crowd attended the
game, there being about seventy
from Marion going up to encourage
the boys which seemed to help win
the game.

Every one was very cordially greet-
ed and hospitably treated by our
neighbors.

Corydon Mill Burns.

Corydon, Ky., July 7.—One of
the most disastrous fires that has
occurred here for several years de-
stroyed the mill and granary of the
Corydon Milling company at 4:30

NOTICE!

To the taxpayers of Crittenden county who owe taxes for the present year.

Your taxes are due, and it will save
trouble for all concerned if you will pay
them at once.

I, or one of my deputies will be at

Dycusburg, Tuesday July 23,

Levias, Wednesday July 24,

Rutherford School House, July 25.

Shady Grove, Friday July 26.

Tolu, Tuesday July 30.

Fords Ferry, Friday August 2.

A due consideration of the above will
be appreciated by

J. F. FLANARY,
Sheriff Crittenden County.

this morning. When discovered the
fire had gained considerable headway
and although the fire department re-
sponded promptly to the alarm, it
arrived too late to save the plant.
The wind carried the flames across
the street and ignited several dwell-
ings, which were promptly put out,
and by heroic work the fire was con-
fined to the mill proper.

Had it succeeded in crossing the
street the city would have probably
had a general conflagration, which
would have effected the principal resi-
dence section. The Corydon Milling
company is one of the most successful
flour mills in this section and is owned
and operated by L. O. and J. E.
Stapp. The mill was insured by the
Miller's National association, but it
is estimated that the loss will exceed
the insurance by \$5,000.

A Little Rosebud Taken.

Almighty God in His infinite wisdom
has seen proper to take to himself
the little son of Mr. and Mrs. R. D.
Drescher. John Marshall Drescher
was born June 6, 1906, and died
July 8, 1907, being one year
one month and two days old.

The dear little fellow had suffered

much for several months past and
had been the cause of great solicitude
to his parents, and his death
had been expected for several days.

The funeral was held at the resi-
dence Wednesday morning at 8
o'clock and interment in new ceme-
tery. The prayers by Rev. Andres
and Carter and the remarks and
prayers by Rev. Elgin were appro-
priate and beautiful. The floral of-
ferings were profuse and many
emblems were in the collection which
completely covered the grave.

Mr. and Mrs. Drescher have the
sympathy of every one in their
affliction, in the loss of this their
first-born and only child.

There were many relatives from a
distance here to attend the burial.

Ice Cream Supper.

The Cemetery Association will
give an ice cream supper in court
house yard, Saturday evening July
20th. The funds are to be used in
finishing the gravel walks and drives.
Every body is earnestly requested to
help in some way, a committee will
call on you to solicit your offering.
Let every one help, so we may have
a cemetery improved.

For Sale, or Rent.

House, in Marion, containing six
rooms. Two acres of ground. Well
eister, stock pond and stable on
premises. Write to me at Princeton
or see me at train.

TO BUILD NEW RAILROAD

**Cairo and Tennessee to be 465 Miles in
Length Through Rich Country.**

Wickliffe, Ky., July 6.—Work on
the first section of a new line of road
from Wickliffe, Ky., to Bristol,
Tenn., has been awarded to the
Cairo and Atlantic Construction
Company. The section contracted
for will run eastward from Wickliffe
108 miles and will be completed within
one year.

The total distance of the entire
line as proposed will be 465 miles.
From Wickliffe the road will cross
the river from Cairo easterly near
the southern border of Kentucky to
Jellico, and thence through the
northern part of Tennessee to Bristol.
Among the places to be touched
will be Jacksboro, Tazewell,
Sneedville, Rogersville, Blountville,
and Bristol, Tenn., and Mayfield,
Dexter, Canton, Cadiz, Gracey,
Hopkinsville, Elkton, Scottsville,
Franklin, Toukpinville, Albany,
Monticello and Jellico in Kentucky.

Such a line will materially shorten
the distance from the coal and iron
fields of Western Kentucky to Cairo,
Chicago and the West.

Surveyors are being pushed on the
remainder of the route. The line
will cross the Tennessee river twice,
one of the bridges being about 1,800
feet long, and will cross the Cumberland
over a high bridge of 1,000
feet. The minimum grades will be
about one-half of 1 per cent., and
the minimum curves three degrees.
The officers are: President, L. W.
Goode, 11 Broadway, New York;
General Manager, Charles H. Delano,
Mayfield, Ky.; Assistant General
Manager, E. C. Watson, Wickliffe,
Ky. The road will be called the
Cairo and Tennessee.

Fourth of July Outing.

J. H. Orme, wife, son, George,
and daughter, Clara Margaret, left
via the "Overland Limited" Thursday
morning at 5 o'clock for Kuttawa to
spend the 4th with Mr. and Mrs. A.
Dewey, on Lake Clough, picnicking,
boating and fishing. They returned
late that evening after a most delightful
but short outing.

DEATH'S HARVEST

Death Angel Visits Neighbor County and Takes away Old Landmark—Also Temperance Speaker

Los Angeles, Cal., July 1—Frauds Murphy, the temperance lecturer, died at 10:30 a. m. yesterday.

Francis Murphy first came into prominence as a temperance advocate in this city in 1876. Under his leadership a blue ribbon propaganda resulted in thousands of men signing the "Murphy pledge" and attracting national attention. Fifteen meetings were held in Library hall following which a call for funds was made to carry on the campaign in other cities.

In a few minutes prominent and wealthy men who had become followers of Mr. Murphy subscribed \$15,000. Subsequently meetings were held throughout the United States.

T. N. Nickell died yesterday at his home of bright's disease, of which he had been a sufferer for several months. Mr. Nickell was born and reared in this county and has been well and favorably known. He was a good citizen and leaves many rela-

tives and friends to mourn his death.—Lyon County Times.

"Uncle Jeff Nickell" was well known in this and Livingston counties. His home was at Grand Rivers Kentucky. He represented the Crittenden-Livingston district in the lower branch of the Legislature and was a faithful and honest man. His friends in this and Livingston Cos. will learn of his demise with great regret.

Cured of Lung Trouble.

"It is now eleven years since I had a narrow escape from consumption," writes C. O. Floyd, a leading business man of Kershaw, S. C. "I had run down in weight to 135 pounds, and coughing was constant, both by day and by night. Finally I began taking Dr. King's New Discovery, and continued this for about six months, when my cough and lung trouble were entirely gone and I was restored to my normal weight, 170 pounds." Thousands of persons are healed every year. Guaranteed at J. H. Orme's drug store 50¢ and \$1.00. Trial bottle free.

THIRD ANNUAL

Open Lawn Tennis Tournament for Championships of Kentucky.

The third Open Lawn Tennis Tournament for the championships of Kentucky will be held on the Estill Springs Courts at Irvine, Ky., July 15 to 20 inclusive.

This annual event has grown with each succeeding year until this year the prospects are the biggest gathering of tennis players in the history of Kentucky will meet at old Estill to compete for the championships of Kentucky and the handsome prizes that have been offered in every event.

The trophy in men's singles known as the Estill Springs Challenge Cup, is of handsome design, one of the handsomest trophies ever offered in the state.

There has also been added a handsome cup in the ladies' singles event, the conditions for winning being the same as in the men's singles event, it being necessary to win the trophy three times, not necessarily in succession, before becoming the property of the winner.

In addition to the trophies offered in these two events, handsome first and second prizes will be given in all other events also in men's consolidation singles.

The winner in men's singles event will be called to meet Dr. Karl Littke, of Cincinnati, in the challenge round. The winner in ladies' singles event will meet Miss Dorothy Kellogg, of Cincinnati, in the challenge round.

Some crack tennis players from Cincinnati, Covington, Newport, Louisville, Bloomington, Ind., Lexington, Paris, Richmond and other Kentucky towns have already entered the tournament. There's every prospect for a big meeting with a surety of the fastest tennis ever seen in Kentucky.

Estill Springs, Irvine, Ky., is reached via the Louisville & Atlantic Railroad, making direct connections with trains from Louisville, Cincinnati and Lexington. The trip to Irvine, via the L. & A. is one of the most picturesque and beautiful trips in Kentucky. Right through the heart of the mountains following the Kentucky river through green valleys across the highest viaducts in the world. The trip is one of continued interest with Estill Springs, a real summer home, as the goal.

For further particulars of the tournament address the Shelbyville Lawn Tennis Club, Shelbyville, Ky.

A Happy Family.

J. J. Mann, of Fordyce, Ark., writes: Use Carlstedt's German Liver Power for ten years, cured my wife of female troubles. Haven't had a doctor for six years, formerly paid two or three doctor bills a year. Would not be without it. Worth its weight in gold! Guaranteed under the Pure Food and Drugs Act. Price 25c. Sold by all druggists.

We heard on the street the other day of a man who claimed he was too poor to take his home paper, but all the same he read a notice in one of our county papers, telling how to prevent a horse from sloshing and sent \$1.50 for receipt. When the \$1.50 worth of information came it to "Billy" McGary, of Paducah, said: "Teach your horse how to spit."

Gigantic Enterprise.

New York city began work on one of the most gigantic enterprises of modern times. The work is to supply the great city with water from the valleys of the Catskill, 130 miles away. When completed it will deliver in New York 500,000,000 gallons of water daily.

Some of its features are gigantic. The Ashokan reservoir will be twelve miles long, one and one-half miles in breadth with a storage capacity of 120,000,000,000 gallons. The most remarkable feature will be the immense inverted siphon which will dip 650 feet at Storm King mountain under the Hudson and come up on the other bank. The aqueduct will be of about the dimensions of a railway tunnel. The work is expected to cost \$160,000,000, or more than the first estimates for the Panama canal.

The projectors have not the slightest doubt of its entire practicability, and have moreover a good deal of pride in the work, because when completed there will be nothing in the old world to compare with it either in magnitude or splendor.

It is another reminder of how tremendous the city of New York is. London is already having hard work to hold the world's financial capital. Had our country done as well by her merchant marine as Germany has done by hers during the last thirty years, that change would have been made before this time.

A Cure For Constipation And Piles Discovered At Last.

Carlstedt's German Liver Powder, removes the cause and cures every case. Never a failure reported. Try it. Guaranteed under the Pure Food and Drugs Act. Price 25c. Sold by all druggists.

New Boat Line.

The Cumberland River's increasing facilities provided for by the United States River and Harbors bill, continue to attract more and extend oil traffic. Last week the Nashville & St. Louis Packet Co.'s organization was announced by R. E. Byroms of Cincinnati, Ohio, who is one of the officers of the company. This line will bring four new boats to Nashville's wharf and to all points between Nashville and the Ohio river on regular trips. Some of the boats will ply the upper river as well as the lower, which means greater commercial possibilities for the lumber land throughout the four miles of her navigable length. The new line will begin operations next spring.

The winner in men's singles event will be called to meet Dr. Karl Littke, of Cincinnati, in the challenge round. The winner in ladies' singles event will meet Miss Dorothy Kellogg, of Cincinnati, in the challenge round.

Some crack tennis players from Cincinnati, Covington, Newport, Louisville, Bloomington, Ind., Lexington, Paris, Richmond and other Kentucky towns have already entered the tournament. There's every prospect for a big meeting with a surety of the fastest tennis ever seen in Kentucky.

The Doctor Away From Home When Most Needed.

People are often very much disappointed to find their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proved fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by J. H. Orme, the leading druggist in Western Kentucky. Haynes & Taylor, the enterprising druggists, of Marion.

Whitell-McGary.

The announcement of the marriage of Mrs. Salie C. McGary to Mr. William C. Whitell, in Portland, Ore., last week was received with interest here. Mrs. Whitell was Miss Cheaney, of Henderson, before her marriage to "Billy" McGary, of Paducah, who had a score of friends on the road.

Venturesome Boy.

Pittsburgh, Ohio, July 1. From well down a 14 year old aeromane made an ascent Sunday in his Sky Flyer and was carried up more than a mile by an adverse current and drifted several miles before he was able to land. The propeller of the air ship is run by foot power and Dixon has been able to handle it readily in a light breeze. A strong current of wind swayed the machine upward until only the gas bag was visible to the naked eye. After being up about half an hour he landed safely. The boy was nervous throughout his trying experience and declared that he did not feel concerned at any time for his safety, although thousands of people below were much alarmed.

IN A NEW HOME

Kentucky State Fair Permanently Located
At Douglas Park In Louisville

With genuine pleasure, we announce the purchase of a new home for the Kentucky State Fair. All the grounds and buildings of the Douglas Park Jockey Club in Louisville have just been bought by the State Board of Agriculture as a permanent location, and the future success of the Kentucky State Fair is assured.

There are 120 acres, and the improvements, worth more than \$200,000, are both new and modern. The grand stand is of steel and concrete and the stables, for exhibition purposes as well as for stall use, are excellently constructed. The stall room will meet all demands. The mile track is acknowledged to be the fastest for trotting exhibitions in the world. Large trees and waving blue grass are to be found throughout all the grounds.

The transportation facilities, both steam and electric, are unsurpassed on the main line of the Louisville & Nashville Railroad, with a switch running the full length of one side, exhibitors, whether of live stock, agricultural implements or the products of the farm, will find the Kentucky State Fair grounds most accessible. Such connections mean every advantage for the exhibitors. On the double track of the Jacob Park line of the Louisville Railway, with a loop on which to store 100 cars at a time, Fair visitors are deposited right at the entrance, within twenty-five minutes after leaving the heart of the city. On the boulevard that intersects the Grand Boulevard and extension of third avenue the grounds are most easily reached by carriages and automobiles.

Those who have given much thought to the matter of a permanent site for the Kentucky State Fair, are congratulating the Board of Agriculture upon its good fortune in being able to buy grounds with such a modern grand stand and other buildings already erected, with grass plots fully matured and full grown trees, with railroad and streetcar facilities for the new home, the State Fair Board can offer advantages to the exhibitors in every department, the equal of those of other State Fairs many years older.

Every exhibitor at former Kentucky State Fairs and all who have not entered for competition there before, are invited by the management to go to the 1907 Fair. Courteous treatment is guaranteed all, with a promise that the visit will be pleasant and profitable. The Kentucky State Fair is destined to become the greatest annual exhibition in the South. Within a few miles of the center of population of the United States, the attendance should reach annually into the hundreds of thousands, nine great railroads centering in Louisville. Surrounded by the best live stock sections of the country,

try, close to the best in agriculture and horticulture, in a State and near States whose women make needle work and table luxuries the equal of any communities, the exhibitions will be worth a long journey.

Secretary B. E. Hughes invites correspondence on any subject touching State Fair matters. Catalogues are ready.

Doctors Could Not Help Her

"I had kidney trouble for years," writes Mrs. Raymond Conner, of Shreveport, Wash., "and the doctors could not help me. I tried Foley's Kidney Cure, and the very first dose gave me relief and I am now cured. I can not say too much for Foley's Kidney Cure." It makes the diseased kidneys sound so they will eliminate the poisons from the blood. Unless they do this, good health is impossible. Sold by J. H. Orme.

The Ostrich is Here.

The ostrich is here. He is of age 21 years, his height is 8 feet 6½ inches, weight 300 pounds, and he kicks farther and harder than a mule. The female ostrich is gray, the male is black. This one is black and came from Hot Springs, Ark. His name is Whirlwind, the famous trotting ostrich. He enters the race against harness horses in half-mile races, when they have made a record of 1:15 in that distance. Peculiar enough, when he gets tired, he sits down. Mr. Carl Kirkham, of Hot Springs, in charge.—Mayfield Monitor.

How to Cure Chilblains.

"To enjoy freedom from chilblains," writes John Kemp, East Didsfield, Me., "I apply Bucklen's Arnica Salve. Have also used it for salt rheum with excellent results." Guaranteed to cure fever, sores, indolent ulcers, piles, burns, wounds, frost bites and skin diseases. 25¢ at J. H. Orme's drug store.

Electricity in the Sick-Room.

In this day of scientific study of the laws of health and of deep research to overcome the fatalities and sufferings of disease, electricity takes no insignificant part.

In the hospital of the modern type the rooms are heated with an electrical luminous radiator, which does not vitiate the air, the cooking is prepared in electrically heated utensils, and the work about the building is accomplished with the aid of electric power. Then, too, there are the electric lights, ventilators, the cooling fans and the impatient telephone. The electrotherm, or heating pad, dispenses the old hot packs. The surgeon prepares his instruments in the new electrical sterilizer. A powerful magnet is used to assist in extracting pieces of steel from the eyes of patients. The electric batteries are of great assistance to paralytics, and the electrical vibrator is beneficial to skin, muscles and body. A device has even been invented in which, it is said, an electric current takes the place of ether and lulls the sufferer into insensibility while an operation is being performed. The baby milk warmer and electric water heaters are also useful adjuncts to the sick-room.

Now, I think those two assertions bears as much truth on their face as his "turkey yarn," of which he has mailed me two postals caricaturing me as drunk, one of which I have returned to him with complaint, which he will receive in due time if "mine brudder" don't forget it.

While I will admit that I am not entirely innocent of the transgression of the grand doctrine of the W. C. T. U. I wonder, Oh! I wonder, if the genial hearted scribe is altogether innocent, if he is, then the turkey is his.

Well, your humble correspondent served on the Election Board as Inspector of the election held in the sixty-fourth precinct, fifth ward voting whether or not Los Angeles should issue bonds for twenty-three million dollars to convey the water from Owens lake and river, which is fed by the eternal snows of the Sierras by flume, tunnel and hydraulic cement canal to the city of Los Angeles, a distance of 250 miles, supplying water-power to numerous electric plants and irrigating thousands of acres of as good land as there is on the continent. Desert now but with an ample supply of water, will blossom as the rose, affording homes to thousands of people. A mighty project and will require the best engineers in the United States. They have already commenced work and the experts say it will take five years to complete it and about as much more money as is voted.

I have served on eight Election Boards in the last twelve months, for which we were allowed from \$5. to \$10. per election.

Now, with dear regards to your valued paper and best wishes for its success. I am yours,

DICK DORR.

Letter from Dick Dorr.

Los Angeles, June 30, 1907.
Mr. Marshall Jenkins,
Marion, Kentucky.

My Dear Friend:

I will start out with this caption Horror of Horrors. I have called down on my unprotected head the scorn and derision of the Record-Press, from the fact that I have been a patron of the Press since its inception. I could not believe that I could say anything to it that would cause it to censure me as in its issue of June 20th.

The learned scribe, of the above-mentioned paper, says that "R. B. Dorr—, and has fired a broadside at this paper and has emigrated as far West as he can without wetting his feet in the Pacific ocean," and in his last says that, "if we wished we might send his letter to that Hogwaller item Feller." I did not say any such thing! Here is what I said, "I hand you herewith a problem which I wish you to submit to the consideration of the wise 'Guy' at Hogwaller," that is the first exaggeration. Now the next is, that I have gone as far West as I can without wetting my feet in the Pacific ocean.

Now, I wish to place myself in the right light before my friends and patrons of The Crittenden Record-Press. I think the learned scribe gets beyond himself and exaggerates largely, for I think I am innocent of firing anything at the Record-Press—, not even the smallest Chinese fire cracker.

Now, I did not know that either of the editors of the aforesaid paper, was the wise "Guy" of Hogwaller and I would love for any of my friends to call at the Record-Press office and see that problem and if it can be said that it is a broadside fired at the Record-Press, then I will make the necessary apologetics.

Now, to foot up the charges of the honorable scribe he says, that I have fired a broadside at the Record-Press, that I have bathed my feet in the Pacific ocean. Now, I say he has exaggerated and Roosevelt says, "It might be called by a shorter word." I have bathed my feet in the frothy surges of the mighty Pacific several times and the last was on Decoration day. I rolled my pants above my knees and bare footed, waded in the foaming surf and have thought since if I had the wise "Guy" from Hogwaller in the surf, I could have washed all the dirt and mangle from his hide, which has accumulated there in his present abode.

Now, I think those two assertions bears as much truth on their face as his "turkey yarn," of which he has mailed me two postals caricaturing me as drunk, one of which I have returned to him with complaint, which he will receive in due time if "mine brudder" don't forget it.

While I will admit that I am not entirely innocent of the transgression of the grand doctrine of the W. C. T. U. I wonder, Oh! I wonder, if the genial hearted scribe is altogether innocent, if he is, then the turkey is his.

Well, your humble correspondent served on the Election Board as Inspector of the election held in the sixty-fourth precinct, fifth ward voting whether or not Los Angeles should issue bonds for twenty-three million dollars to convey the water from Owens lake and river, which is fed by the eternal snows of the Sierras by flume, tunnel and hydraulic cement canal to the city of Los Angeles, a distance of 250 miles, supplying water-power to numerous electric plants and irrigating thousands of acres of as good land as there is on the continent. Desert now but with an ample supply of water, will blossom as the rose, affording homes to thousands of people. A mighty project and will require the best engineers in the United States. They have already commenced work and the experts say it will take five years to complete it and about as much more money as is voted.

OPOSSUM RIDGE

[Last week's letter.]

Child Culture.

The grave responsibility in all human life is involved in the duty of parents to children. If they neglect the moral education of the child, the result is often a malformed brain that may rule to ruin in after years. By earnest, intelligent effort, they may shape the plastic soul into a noble, beautiful character; and Mental Suggestion, wisely employed, will insure their success in this all-important work. High thoughts, desires and resolves often and thoroughly impressed on the child's mind and heart, will become integral parts of its soul and the ruling motives of life.

Of the practical results in character building achieved by the method, Prof. Newton N. Riddell says: "During the past fifteen years I have had occasion to employ these principles in the education and government of thousands of children, representing all classes and conditions. I have found it possible, not only to develop the normal child into a strong, beautiful character, but that in most instances even bad hereditary tendencies can be largely overcome and evil acquired traits completely corrected."

Prof. Riddell's method is, briefly as follows. First win the child's love and confidence. Explain to it that you wish to help it develop a noble character, and that if it will work with you, you will surely succeed. Every morning have it repeat after you these or similar words: "This day, God helping me, I will be good, I will be honest, kind, pure and true. I will do all I can to make others happy. I will not do wrong. I can and I will do right." These affirmations should then be sealed in the mind and heart by a brief, fervent prayer for divine help and guidance. If the child has any fault to overcome, earnestly and impressively repeat to it affirmations adapted to its need, and have it also repeat them several times each day and at bedtime every night, but always when it is in a passive, receptive mood. For instance if it is selfish say to it: "You will not, you must not be selfish. Deep down in your little heart you are kind and loving. From this time on you will do unto others as you would have them do unto you." If you put your whole soul into these affirmations, believe them yourself, and repeat them a sufficient number of times to make a deep, abiding impression on the child's soul, experience proves that they will almost invariably become controlling factors in its character.

Every child should be governed as largely as possible from within. Teach it to do right for right's sake, not for fear of punishment or hope of reward. Otherwise it goes into the world a prey to its own appetites and as an easy subject to the will of others. Develop its intellect, conscience and love, by constantly appealing to these qualities and making them the ruling motives of conduct. Teach it what is right and what is wrong and why. Seek to have it obey its conscience as the voice of God in its soul. Impress upon it every good thought and act helps to develop a beautiful soul—the one absolutely essential condition of highest happiness in this life and that to come; that every evil thought and act deforms its soul and most inevitably result in misery and unhappiness. Constantly encourage it to do acts of kindness and helpfulness. Teach it the laws of personal purity. Above all, exemplify in your own life what you would have the child become. Your every word and act in its presence helps to make or mar its character. Family jars, nagging, etc., destroy its finer feelings and aggravate the worst elements in its character. "Like begets like;" an angry word excites anger, love awakens love. By always living, thinking and desiring the noble, the good and the true you may most surely create these conditions in your children.

Obituary.

Mr. Hayes Hill departed this life June 15, 1907.

He was born in Crittenden county, Kentucky, and at his death was aged 27 years, six months. At an early age he emigrated with his father, Hasdon C. Hill and family, to Yankton county. He was the youngest member of the family. After maturity he was clerk in a merchandise store for Mr. Thompson of Parker Bottom for several years until his health became impaired and he fell a victim to that fatal malady, consumption, after which he resided with his brother, Frank Hill, near Zillah. He was a moral, chaste, upright young man. Though making no public demonstrations, yet he believed in the true principles of Christianity, and was an earnest student of his Bible. He bore his afflictions with patience and fortitude, and with a tender, kind regard for the feelings and welfare of others. He leaves an aged father and five brothers, four sisters-in-law and many relatives who feel sadly the loss they have sustained.

The funeral services were conducted by the writer at his residence, and the remains were followed by a large concourse of friends to the cemetery at Zillah, where loving hands laid him peacefully to rest.

Thy body worn with care,
Sleeps as a lily fair.

Immortal with thy spirit share
The endless spirit life.

—The Tappanish Review.

Coming Back.

Lifting and laughing
The summer days go by.

The blossoms nod to every breeze
Aud laugh back to the sky;

The children laugh and romp and play

As children always do,
And every laughing little girl

Reminds me, dear, of you.

Dancing and skipping

And playing in the sun;
Just living sunbeams clothed and curled

And given legs to run!

And glad—it seems that every one
Is glad as she can be,

And every one just walks right in
Into the heart o' me.

Totling and twirling

And, oh, the days are hot!

And oh, my heart is longing

For the lass afar from me.

With windblown curls of gold,
Who's coming back to kiss her dad

When summer has grown old.

Lifting and laughing

Arms outstretched and glad!

God bless the little girl wh'll run

With blowing curls to dad!

God keep each daddy safe from harm,

And babes with curls o' gold,

And bring them heart to heart again

When summer has grown old.

The editor who can please every one is not suited for this earth, but is entitled to wings. Human nature is so constituted that some of our readers would like to have us feed them on scandal, some would like to have us tell the unvarnished truth about them, while others would kill us if we did. It is a comforting thought to the editor to know that the Lord Himself did not please every one while on earth. We labor hard to entertain and please our subscribers but that we should occasionally fail is to be expected, but you will always find us willing to be forgiveu.

That our town is a live town is easy of demonstration. More business is done here now at this time of the year than has been done for several years. We are not desirous of having the public think we are suffering from a boom. We are enjoying an increase of business and prosperity. Our streets are crowded early and late, people and teams are bringing in produce and money to exchange for goods, and our merchants are paying the very highest market prices for produce and are selling goods at "live and let live" prices and the people are not slow to take advantage of this opportunity and get the bargains as advertised by our merchants.

STANDARD OIL COMPANY
(INCORPORATED)

NOT INSURE TOBACCO

Drastic Action to be Taken by Insurance Companies.

The Louisville Herald says

Announcement was made yesterday by Claude Snyder, Secretary of the Kentucky Board of Fire Underwriters, of drastic action which has been taken by the fire insurance companies doing business in this state, as the result of the incendiary fires pre- prepared in various parts of the state, in which tobacco losses were involved.

In brief, the companies have announced that losses of that sort will hereafter not be paid, and in some instances where "night riders" have burned barns the companies have refused to pay. They intend to use the utmost effort to prevent such fires from continuing, and to discourage their continuance by refusal to pay the losses. Many of the companies are refusing to write such business.

A meeting is to be held here July 17 by representatives of the various tobacco districts, the announced purpose being the organization of one general body to control the output of the tobacco. It is likely that at this meeting the insurance companies will put definitely before the growers the seriousness of the situation, and will ask that the growers for their own protection, take steps to prevent incendiary fires from occurring.

The resolution concludes as follows:

"As a result of the incendiaryism which occurred last year, all the companies which had heretofore written large lines on tobacco have curtailed their operations along this line many have ceased business of this class in all except the large cities while others have abandoned it altogether. The petty acts which have been committed in the way of destruction of plant beds have not tended to reassure us, and it is the sense of this association that, unless the confidence can be restored, the companies will refuse indemnity to all handlers of tobacco of all classes."

A schoolmaster once said to his pupils the boy who would make the best piece of composition in five minutes on "How to Overcome Habit" he would give a prize. When the five minutes had expired a lad of nine years stood up and said: "Well, sir, habit is hard to overcome. If you take off the first letter it does not change habit. If you take off another letter you still have a 'bit' left. If you take off still another the whole of 'it' remains. If you take off another it is not totally used up, all of which goes to show that if you want to get rid of habit you must throw it off altogether." Result—He won it.

A lady who understands advertising says: "No lady wishes to be looked upon as a shopping fiend, she does not care to go into a store and have a merchant show all his stock in order to find out whether he keeps what she wishes to purchase and whether the article is sold at a price she can afford. It is much easier and pleasanter to look through the advertisements of a paper than it is to bore the clerks and waste her own time. Next to the local news items, the advertisements in a paper stating articles for sale with prices, will keep much of the money that goes to the large cities at home."

SALEM

(Last week's letter)

The health of Salem people is generally good, only two cases of measles.

We are glad to report our sick as convalescent, Mrs. Barnes, Miss Lake Harris and Raymond Babb.

Mrs. Laura Hayden and son, John, are visiting her parents in Texas. They are expected home this week.

Mrs. Sarah Hayden is spending the summer at Dawson Springs.

We gladly welcome our boys and girls home from their schools in Louisville and Hopkinsville.

Prof. Hust is attending the teachers meeting at Kuttawa, this week.

Dr. H. D. Laline and family, of New Burnside, Ill., arrived Tuesday visiting relatives here.

Rev. C. T. Clark attended the ministers and members meeting at Corinth last week.

Rev. E. M. Eaton has bought the Lowery property near town. We welcome him back in our midst.

Miss Emma Shamwell, of Birdsville, is visiting here, the guest of Miss Nellie Gray.

Honest Confession

Here's a story that sounds like it
should have on it the brand of Chaplin.

Road. I don't know who wrote it. I
only know it's too good to get away.

A northern man tells that while trav-
eling through the South, he once saw a
negro, his hand, sitting under a
tree at the edge of a cornfield that was
badly overrun with weeds. The negro
was doing well drawing, that he
was out there to be late dat corn.

Then what are you doing under
the tree resting?" persisted the traveler.

No such thing, the restin' was the
answer. Ah'm not indeed. Ah'm
wartin' for the sun to go down at Ah
kin' quit work.

An Editor's Tip

A wife who loves her husband will
not object to cutting his hair every
week or two instead of every two or
three months. Any man can learn to
shave himself. A box of blacking
costs ten cents, will last months.

A chunk of soap, some hot water and a
rag will take the grease and dirt out
of an old suit of clothes.

Most any man can go to bed in four
minutes once in ten days and have his wife or
daughter crease his pants. A brush
and a little elbow grease will take the
dust out of ones clothes.

Flowers are thick along the streets and it is a
mighty slow poke who can't swipe a
buttonhole when coming down town.

Of course it costs 10 or 15 cents a
week extra to have a nice clean collar
and cuffs every morning. And there
you are. After all, then the dinner
comes between coming down town
of merriment looking as if you had slept
in a hay mow or appearing as though
you had just shot out of a haystack, 15
cents a week, a little soap, water
and elbow grease. Of course, if your
wife doesn't love you, he will kick on
cutting your hair and creasing your
pants, but then if she doesn't love
you, it is your fault. She will tidy
you up every morning, if you are any
account and treat her right.

The Heart or the Kidneys Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves the inside nerves means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for blotting, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for samples and free Book. Dr. Shoop, Racine, Wis. The Restorative is sold by Haynes & Taylor.

Dr. Crawford Leaves Hampton.

One of Hampton's best and most prominent citizens moved away Tuesday when Dr. J. Frank Crawford left himself, his good wife and household effects to Wheatcroft Ky. Dr. Crawford has a good place there as the company physician for the West Kentucky Coal Co. He has been engaged in the practice of medicine at Hampton for about five years, during which time he has made many warm friends. About two years ago he married a lady in Louisville and since that time she has proven to be quiet as popular as he and the people of the community regret to give them up but hope the change is for the better.

Immortality of the Soul.

Is it possible seriously to think of the passing into nothingness of a great mind or the everlasting extinguishment of a soul that has led the world along paths which, before that soul's birth, it never dreamed of? It may not be wholly unthinkable, for men can think of the impossible, but it lies beyond the realm of the possible that the God-like in our nature should ever perish. If no atom of matter is ever wholly lost, why should we think that spirit, which rules triumphantly over the realm of matter, should ever perish?

Is the servant greater than his master or the minuscule dust in the hand greater than the hand that holds it, or the will that controls the hand, or the love that directs the will?

Business Positions.

There are few, if any, vocations that offer more certain and more speedy promotion in business than does shorthand. Now that the whole country is prosperous and nearly every business man wants a reliable stenographer, it behoves young people to prepare themselves in this easily acquired art. It takes only a short time to learn it well enough to take an office. The Business University at Bowling Green, Ky., will furnish all information concerning terms, etc.

Dying With New Disease.

The skin of Mary Coffers, aged 13, a boundress in the Allegheny General hospital, Pittsburgh Pa., is dyed purple color from head to foot and the physicians of the institution are making a strenuous effort to save her life.

The young woman, about two weeks ago, used indelible ink to polish her shoes. After wearing the shoes for several days she noticed that her feet had been dyed a deep purple.

Shortly after making this discovery the woman found the coloring matter was gradually spreading over her entire body. She was taken seriously ill and the physicians discovered that the coloring matter used upon the shoes has been absorbed through the skin of the feet and by the blood has been carried through the entire body.

For want of a better name, the ease has been designated as one of "indelidlets."

Our Summer Schools.

With three great Summer Schools for Sunday school workers in our reach it will be almost criminal for any Sunday school not to send at least one representative. These schools are in every respect up to the very highest standard. Every Sunday school should send at least one delegate, pay his way, and have him make a full report to the school on his return.

The first of these schools in point of time is the one at Monteagle, Tennessee, only a short distance from Nashville, and Nashville is only fifty miles from the southern border of Kentucky. Dr. Hamill, the dean, has spared no pains to make this the greatest thing of its kind not only in the South but in America.

He has secured a one-fare rate for the round trip, and good board can be secured for \$7 to \$10 per week. This makes the expense exceedingly light. Besides the advantages of the school, Monteagle is a delightful summer resort where you can spend your vacation at a small outlay.

The date of the school

FREDONIA.

On Thursday, July 4th, the Wilson Laundry base ball team of Marion came up and crossed bats with the Fredonia team. The score was 14 to 15 in favor of Marion. It was a fine game and interesting from the very start as the teams were well matched and several times during the game the score was even, which caused the fans on each side to root hard for their teams. About sixty or seventy-five people came up from Marion to see the game and encourage their team. We certainly appreciated their presence and enjoyed their stay with us for you could not find anywhere a jollier and nicer lot of ladies and gentlemen, and we hope they will call on us again sometime soon.
